

READING COMPREHENSION INSTRUCTION THAT GETS RESULTS WORKSHOP

- Learn scientifically proven reading comprehension strategies that increase the achievement of all students.
- Create interactive lessons where students draw conclusions, make inferences and solve problems based on what they read.
- View short videos of master teachers demonstrating how they teach reading comprehension strategies across the curriculum.
- Apply manipulatives, cue cards, organizers and discussion to boost the reading performance of all your students.

AN INFORMATION PACKED WORKSHOP

In this lively workshop, Dr. Schacter will show you how to increase your students' comprehension skills by combining explicit instruction, effective modeling, and classroom discussion. Over the course of the workshop he'll introduce 10 scientifically proven reading comprehension strategies, and unique cooperative learning structures that give students time to practice reading and teachers' time to monitor strategy use. Teachers will leave this seminar with the latest proven strategies and techniques for teaching reading comprehension grades 1-8.

This workshop includes

- *The Master Teacher Series: Reading Comprehension* book.
- Reproducibles available in MSWord format so teachers can adapt the student manipulatives, cue cards, posters, graphic organizers, and other comprehension materials to meet their grade level needs.
- A participant workbook with lesson plan templates to guide effective comprehension strategy instruction.
